product details

“ A cost effective solution to repair leaks and prolong the lifespan of a tank. ”

The Duratank series of tank liners provide a flexible & reliable containment system for stored liquids. Tank liners are easy to install and can be fitted inside most existing and new tanks, including but not limited to:

- Concrete Tanks (cast, insitu or pre-cast)
- Corrugated Iron Tanks
- Concrete Block Tanks
- Open Top Tanks
- Flat Steel Sheet Tanks
- Fibreglass Tanks
- Brick or Wooden Tanks

FEATURES

- Customised to fit any size or shape of tank
- Cost effective solution for repairing older tanks
- Can be installed in new tanks as a primary containment system
- All potable tank liner material is certificated to meet required standards
- UV resistant liners available for open top tanks
- Will conform to tank or ground movements
- Australian Made for peace of mind

APPLICATIONS

Suitable for both domestic and rural applications, including but not limited to:

- Potable water storage
- Storm water catchment and storage
- Grey or recycled water storage
- Irrigation water
- Waste water
- Liners customised to suit virtually any application
