

“ Prevent contamination and reduce hazards to work areas with a retractable barrier. ”

At a fraction of the cost of a permanent wall, a retractable heavy duty industrial curtain is an ideal solution to protecting work areas and reducing hazards. Not only can you protect work areas that are open to the environment, you can also divide off work areas, prevent dust and other particles from spreading to other work environments and isolate work areas from surrounding contaminants. The flexibility of Fabric Solutions manufacturing means we can readily offer a complete customised solution.

FEATURES

- Durable and UV resistant
- View through panels available
- More flexible than a permanent wall
- Less expensive than a permanent wall
- Add your logo or branding to stand out
- Protect exposed work areas from the weather
